HSC
Dawle Junior College, Akola
2021

PROGRAMMING LANGUAGES

Java | Python |

EXPERIENCES

present Editor, Rotaract Club Of VIIT

PROJECTS

Cloth Donation Website

In this one can donate the cloth in online mode to specific organization. We have used the MySQL for the backend. Technology Stack: HTML, CSS, JS, Python(Flask).

Metal Detector Dustbin

In this we have made the dustbin for the separation of non recycled garbage that can be thrown in regular dustbin. For that we used the metal detector circuit which will make sound when non recycled waste is thrown away.

Li- Fi

Here we used light as source to develop the contact between the two host rather than the wifi.
