Dedicated and dynamic tech enthusiast with a passion for collaborative problem-solving and a keen enthusiasm for continuous learning. Adept at working seamlessly within a team environment, I thrive on the exchange of ideas and knowledge-sharing to achieve common goals. My commitment to staying informed and acquiring new skills reflects a genuine enthusiasm for the ever-evolving tech landscape.

### SKILLS

- PYTHON
- JAVA
- DATA STRUCTURES
- PROBLEM SOLVING
- DIGITAL SYSTEMS
- OOPS

### LANGUAGES

- English
- Marathi
- Hindi

### PROFESSIONAL EXPERIENCE

IBM and CSRBOX Micro - Internship  
Data Analytics (Virtual Internship)

6 November - 20 November 2023

### EDUCATION

Bachelor of Technology in Electronics and Telecommunication Engineering  
Vishwakarma Institute of Information Technology  
CGPA: 9.43

HSC (XII Science) - 93%  
Jain International School, Nagpur

SSC (X) - 95.4%  
School of Scholars, Amravati

### CERTIFICATIONS

1. Data Analysis with Python
  - IBM Skillsbuild
2. The Ultimate MYSQL Bootcamp
  - Udemy (Progressing)
3. Data Structure and Algorithm using JAVA
  - Infosys Springboard

### PROJECTS

1. Fruits Quality Assessment using Machine Learning Approach
  - A ML Model that assess the quality of the fruits through image processing using CNN
  - Using Python, CNN
2. Object Detection using YOLO Machine Learning Model
  - A ML Model that detects and classifies objects enabling simultaneous prediction of bounding boxes and class probabilities.
  - Using Python, OpenCV
3. Smart Fire Detection System using NodeMCU ESP8266
  - Wireless Fire Detection and Alert System, integrating NodeMCU ESP8266, Buzzer, LED indicator and Blynk IoT
