PROJECT

Business Growth Website Developer

| **HTML, CSS, JavaScript, Bootstrap, Mern Stack** | December 2022 - March 2023

- Addressed the critical issue of a staggering 85% startup failure rate in India through the Startup Failure Challenge.
- Conducted root cause analysis using DataTab research, identifying key factors: knowledge gaps (60%), lack of innovative ideas (80%), and ineffective business strategies (70%).
- Developed strategic intervention through our website, aimed at halving the impact by providing essential resources and support to overcome these challenges.

Local Labor Connect

| **HTML, CSS, JavaScript, Bootstrap, Mern Stack** | April 2023 - July 2023

Created an online platform to link local job seekers with employers, simplifying the process of hiring for short-term or temporary roles. Features being developed include location-based job matching and easy messaging for clear communication between users.

CODING PLATFORMS

Solved **400+ Problems** on **Leetcode**. (**1.8L rank on Leetcode**) 📈
Solved 150 + Problems across **GeeksforGeeks** 📈
5 STAR IN HACKER RANK 📈
