EDUCATION

Vishwakarma Institute of Information Technology

B.Tech in Artificial Intelligence and Data Science

(9.01) Pune, India

Nov. 2022 – Nov. 2025

Government Polytechnic Jalgaon

Diploma in Computer Engineering

(88.91) Jalgaon, India

Aug. 2019 – May 2022

EXPERIENCE

Full-Stack Web Developer

Endurify

Jan 2024 – June 2024

Pune, India

- Developed and launched a **personal portfolio website** for a client using **React**, showcasing skills, projects, and professional achievements.
- Created the website from scratch for Endurify using **React** and **Redux Toolkit**.
- Built a **blogging platform** with **React**, **Firebase**, and **CKEditor** for seamless content creation and editing.

Web Developer

Geek for Geeks, VIIT club

Oct. 2023 – Nov. 2023

Pune, India

- Designed and implemented the **Teams-page** for GFG VIIT club's website.
- Integrated **Cloudinary** for efficient image management, optimizing website performance.
- Created custom card components for team members, enhancing user experience.

PROJECTS

Calcal [Link] [GitHub] | Golang, MongoDB, React

June-July 2024

- Developed a calorie tracking application with **Golang** for backend services, enabling users to log meals, track calorie intake, and monitor nutritional information.
- Used **MongoDB** for reliable and secure storage of user data.
- Created a responsive frontend using **React**, providing an intuitive and user-friendly interface for seamless tracking and reporting.

Ecomm [Link] [GitHub] | MERN Stack, Redux Toolkit, Cloudinary

May-June 2024

- Developed a comprehensive e-commerce application with features such as product categorization, CMS, admin panel, add-to-cart functionality, product details, and **Cloudinary integration** for product images.
- Implemented efficient state management with **Redux Toolkit** for improved performance and maintainability.
- Enhanced user engagement through **dynamic content management** and real-time updates.

Socials [Link] [GitHub] | React, Firebase, Zustand

March-April 2024

- Developed and launched a dynamic social media web application enabling user posts, comments, profile searches, and likes.
- Utilized **Zustand** for efficient state management, enhancing scalability and maintainability.
- Achieved robust **real-time data handling** for immediate content updates and interactions.

Blogs [Link] [GitHub] | React, Firebase, CKEditor

Feb. 2024

- Developed a blogging platform featuring an integrated rich text editor for seamless content creation and editing.
- Implemented **real-time data synchronization** with Firebase for instant updates and reliable data storage.
- Enhanced user experience with **CKEditor** for a powerful and user-friendly text editing interface.
