EDUCATION

Vishwakarma Institute of Information Technology Artificial Intelligence and Data Science Bachelors of Technology <i>CGPA: 9.25</i>	Pune December 2022 - Present
Government Polytechnic College Computer Engineering Diploma <i>Percentage: 92.11%</i>	Khmagaon August 2019 - July 2022

EXPERIENCE

Codeclause Data Scientist March 2024 to April 2024 One month Data Science Virtual Internship at CodeClause, given with the projects based on Data Science. Learned basics to intermediate level Data Science skills like Data collection, Data cleaning, Data preprocessing, Machine learning Model development, Model Evaluation, Python for Data Science.	Remote March 2024 - April 2024
--	----------------------------------

SKILLS

Programming Languages:	Python, SQL
Libraries/Frameworks:	Pandas, Numpy, Matplotlib, Seaborn, Scikitlearn
Tools / Platforms:	VS Code, Jupyter Notebook, Power BI, Excel
Databases:	MySQL, PostgreSQL

PROJECTS / OPEN-SOURCE

IoT-based Intelligent Solution for Unhealthy organ prediction towards preventive Healthcare <i>CNN, OpenCV, YOLOv8, Flask, AWS</i> Project focuses on developing an automated system for detecting unhealthy organs by analyzing acne patterns on the face. By identifying the location and severity of acne, we aim to predict potential health issues related to specific organs, providing a non-invasive diagnostic tool.	
An Exploratory Data Analysis of Diwali Sales Data Link <i>Python, Pandas, Matplotlib, Seaborn</i> The EDA of Diwali Sales Data reveals key trends in customer demographics, purchase behavior, and sales patterns, highlighting the effectiveness of discounts and marketing campaigns. The insights can guide future strategies to optimize sales and target high-value customers more effectively. Overall, it provides a clear understanding of what drives Diwali sales success.	<i>Jupyter Notebook,</i>
